

Summary

Creative and detail-oriented full-stack web developer with a passion for building responsive, user-friendly, and scalable web applications. Experienced in both front-end and back-end development, with a strong focus on solving real-world problems through clean code and practical solutions. Known for turning design concepts into functional products, working effectively in team environments, and continuously improving through learning and experimentation. Eager to contribute to meaningful digital experiences in fast-paced tech environments.

-
- **Technical Skills:** HTML, CSS (Tailwind, Bootstrap, Daisy UI), JavaScript, React, Node.js, Express.js, EJS, MongoDB, Mongoose, Git, GitHub, Netlify.
 - **Soft Skills:** Team collaboration, Adaptability & Willingness to Learn, Client Interaction & Feedback Handling, Attention to Detail.

Experience

Developers in Vogue | (2025)

- **Sister-Sister App** – Collaborating with a colleague to develop a web platform that connects young women with professional women mentors for guidance and conversations. Built with **React** and **Redux** for state management, and integrated a **Node.js/Express** backend with **MongoDB** for data storage.

Digital Skills Expert – Young African Works Program, ABSA (2024-2025)

- Selected to participate in a youth-focused digital skills initiative to support African startups with modern web solutions.
- Designed and developed **two startup websites**, including a fully functional **e-commerce platform** using **React, JavaScript, Tailwind CSS, Context API, MongoDB and Node.js/Express**.
- Collaborated closely with startup founders to transform business goals into user-friendly, functional websites.
- Gained practical experience in client communication, agile development, and deploying projects to production.

MEST Africa | Trainee | (2024)

- Built a modern, responsive portfolio website with React and Tailwind CSS, highlighting projects and technical skills, and improving personal brand visibility to potential employers and collaborators

- Collaborated with a backend developer to develop a rental web app that connects house owners and prospective tenants. Focused on front-end development using React and Tailwind CSS to build responsive UI components, search functionality, and interactive forms, while integrating seamlessly with backend APIs for property uploads, user authentication, and fraud reporting.
- Worked closely with a team to design and develop an advertising web application, implementing reusable UI components with React and Tailwind CSS to improve performance, maintainability, and user experience.

Nanti Systems | National Service Personnel | 2023

- Assisted in the design, development, and testing of software projects, gaining hands-on experience in coding, debugging, and collaborating with team members to meet project requirements.
- Provided technical support to clients by troubleshooting software and hardware issues, ensuring timely resolution of problems, and enhancing customer satisfaction through clear communication and guidance.
- Contributed to problem-solving sessions by analyzing technical challenges, brainstorming innovative solutions with the team, and recommending improvements to enhance efficiency and system performance.

Education

Software Engineering Certificate - Developers in Vogue (2025)

Web Development Certificate – MEST Africa (2024)

BA Information Studies – University of Ghana (2022)
