Experience

Developers in Vogue | Trainee (2025)

Built and deployed multiple projects, including:

- **Employee Management System** - A CRUD-based web application for managing employee records using Node.js, Express.js, and MongoDB.
- **Blog Platform** - A content management app built with EJS templates and Express.js.
- **Talk to a sister** - Collaborated with a colleague to build a platform connecting young women with fellow women in professions to talk to.

Digital Skills Expert – Young African Works Program, ABSA (2024-2025)

- Selected to participate in a youth-focused digital skills initiative to support African startups with modern web solutions.
- Designed and developed **two startup websites**, including a fully functional **e-commerce platform** using **React, JavaScript, and Tailwind CSS**.
- Collaborated closely with startup founders to transform business goals into user-friendly, functional websites.
- Gained practical experience in client communication, agile development, and deploying projects to production.

MEST Africa | Trainee | (2024)

- Designed and developed a responsive portfolio website using **React, Tailwind CSS** to showcase projects and skills.
- Collaborated with a backend developer to build a rental web app that connects house owners and prospective tenants.
- Collaborated with a team to design and develop an advertising web application using **React** and **Tailwind CSS**.

Nanti Systems | National Service Personnel | 2023

- Assisted in software development projects.
- Assisted in technical support to clients.
- Contributed in problem solving sessions

Projects

Rental Web App

- A platform that allows house owners to list their properties while tenants can search, contact, and report fraud.
- Built using React, Tailwind CSS, and collaborated with a backend developer.

E-commerce Store (Startup Website)

- A fully responsive online shop built for a startup using React and Tailwind.
- Included cart functionality, local Storage, and user-friendly design.
